

2020-2021 COVID-19 Procedure Information

Students attending Scott County campuses will need to bring a water bottle daily to use at the water stations because water fountains have been turned off due to the spread of the virus. It is recommended that students bring their own individual hand sanitizer and pencil pouch as well as a container of Clorox Wipes for their home room teacher.

The Scott County School System will follow the CDC recommendations to social distance, wash hands often, and wear a mask in common areas such as the bus, halls, restrooms, etc. Each student will be provided four washable masks. Once students are seated in classrooms, café, etc., masks can be pulled down.

We do ask parents and guardians to be patient and plan a few extra minutes into their drop-off routines in order for all car riders to have their temperatures checked each morning. We ask that all enrollment forms be kept up to date with current phone numbers and address information. Please keep sick students or students running a fever above 100.4 at home. Students will need to check their school email on a daily basis for assignments.

You can check all this information in its entirety at scottcounty.net. We look forward to seeing each of you again and having a very successful school year!
